The Santa Ana Zoo at Prentice Park is pleased to embark on an exciting new venture: presenting one of nature's most unusual creatures – the Giant Anteater.

We were able to raise \$1M (one million dollars) to begin construction of the Tierra de las Pampas Exhibit which includes a habitat for a pair of Giant Anteaters. Construction has begun on the project, and completion is anticipated in January 2010. The project will showcase these magnificent animals to the hundreds of thousands of guests who visit the Santa Ana Zoo each year, but it is much more than that. The exhibit is also a conservation project which will inform visitors about the endangered status of the Giant Anteater. It is our intent to import a breeding pair of Giant Anteaters with the goal of establishing a new line in the United States. In order to purchase the breeding pair, we have set a deadline of raising the monies needed by May 2009. Please join us in this exciting venture!
