Claws for ripping holes into the termite mound. Their long snout is actually not an answer to a trivia question, who was it? For those of you too young to remember, our new exhibit, Tierra de las Pampas, is open every day for your enjoyment. With 20 exotic species, the Pampas is the tallest and most beautiful realm. It can grow up to 60' tall and is soft and spongy, retaining nearly 80% of its water. A special “Sneak Peek” event will take place on April 10 between 11 a.m. and 2 p.m. so you can come and visit us in the urban oasis right here in your own backyard when the fences will be down. On "Tierra de las Pampas" April 17, the fences will come down. This dozen will be closed, and all the paths will be opened as the Santa Ana Zoo celebrates the grand opening of its spectacular "Tierra de las Pampas".
